Dear Dr Mesibov,

As advised, The ARC sought sector input to the development and review of the Ranked Journal List through several phases of direct consultation with relevant discipline experts and representative groups and public consultation. I am satisfied that the ARC provided ample opportunity for discipline peak bodies, academics and members of the public to provide comment and contribute to the development of the list.

A list of the peak bodies involved can be found on the ARC website at:
http://arc.gov.au/pdf/ERA_expert_reviewers.pdf

For the purposes of ERA, disciplines are defined as four-digit and two-digit Fields of Research (FoRs) as classified in the Australian and New Zealand Standard Research Classification (ANZSRC). The Australian Bureau of Statistics (ABS) is responsible for determining these FoR codes. More information about ANZSRC can be found <http://abs.gov.au>

Best wishes
Leanne Harvey
General Manager
